So you hung out in the classmates , talked VKontakte poukrashali its pages . But it is somehow not enough , and want something more abruptly , such as full-fledged website or blog . Of the worthy options , it is a choice between normal or uCoz hosting php hosting with cPanel.The Internet , of course, many other services , with all the designers site , but their functionality is clearly inferior .

So, to make a site on the yukoz certainly tempting (if and to the same html not chop). Turned out as in the joke : A woman is like a suitcase without a handle , be uncomfortable , but to throw pity.By the way this is a minus you are totally dependent on visits admins uCoz, and where they can swing tomorrow, God knows . And tell the young site , even well- done and catch up on TIC -10, soon will not even beat that kind of money that wants uCoz.
